

Capstone Project – The Battle of Neighbourhoods

Data

The data required for this project will come from the following:

1. Toronto Neighbourhood with Pin-code :
https://en.wikipedia.org/wiki/List_of_postal_codes_of_Canada:_M
2. Latitude and Longitude of Toronto Neighbourhoods as provided in Week 3 of the Capstone project: https://cocl.us/Geospatial_data
3. Four Square API – to obtain nearby restaurants for each neighbourhood. We will then select only the Indian restaurants from the total list of restaurants for our project
